Easy Homeschooling Curriculum

NEW! with 16 Guest Authors! "Lorraine Curry guides the reader through rich literature selections that will challenge you and your children. In our culture of slang language and decadent, amoral lifestyles,

these selections are refreshing and challenging, reminding us that things were not always this way. ...The subject chapters offer helpful guidance when putting together literature-based studies. ...a valuable and well-used resource; inspiring as well as challenging to all who read it." -Christy Herbert. Book \$18.99. Ebook \$10.00.

Fields with God

NEW! Nature Devotional. "Lorraine looks at nature, and she tells me in these pages about all the things it brings to mind as she walks with God through flowers and forest.

An organic connection forms between my heart and hers as I meander through the meadows of change, winter's sleep and spring's new life. This is the break I needed from the cold and barren of late winter. I read, and my heart fills with echoing thoughts on motherhood, on womanhood, on living close to the wild earth. I'm immersed in the same feelings that overflow me in the quiet of my own

garden and the changing seasons of my life. I look around me, and I look ahead through Lorraine's eyes. -Cathi-Lyn Dyck, www.cathilyndyck.blogspot.com Book \$12.99. Ebook \$10.00.
